

## Gayhurst Community School

Year 1

Autumn 2

## Homework Challenge Card

---

### How it works

Over this half term children need to choose a minimum of 3 homework challenge tasks to complete and hand into school on **Monday 14th December 2020**

If children want to complete more than this, then they are very welcome to do so.

We would encourage children to pick at least one task from each subject area but the choice is down to the individual child.

The homework challenge tasks have been designed to be practical and creative but please continue to use the red homework books to record what children have completed during the half term. This might be by writing about it, using ICT, sticking in drawings or even photos. It would be really helpful if children could date their work.

Adults supporting homework challenge tasks are also free to write in homework books to confirm children have completed particular tasks if necessary.

If you have any questions or help please speak to your child's teacher who will be happy to help.

All challenge card homework for this half term need to be back in school on **Monday 14th December 2020**

# Your choices for this half term

---

## English

\*Can you write a short story with you as the main character like Amazing Grace? What adventure will you go on?

\*Design and make poster showing how we can help our world. Make your writing big, bold and bright.

\*Draw a character and describe them in detail using amazing adjectives. Use your senses to help you.

\*Practice forming your letters at home. You can do this by drawing letters in flour or making letters with playdough.

\*Practice spelling these tricky red words at home.

the, at, that, you, your, was, what and want

## Maths

\*Find things that come in pairs and things that can be doubled like socks and gloves. How many doubles can you make? Take photo or draw a picture.

\*Can you make a sandwich and cut it in half? Can you cut fruit or shapes in half? Stick the shapes in your book.

\*Practice writing your teen numbers. Make sure your numbers are the right way round.

\*Try and write numbers 1 to 10 in words. Listen to **number words rap** to help you.

\* Practice your number bonds to 10. How many ways can you add 2 numbers to make 10?

## Topic/Science

\*Create a map of your bedroom. Make a key to show what everything is.

\*Draw and label a picture of what our world would look like if everyone looked after it. What would the parks, beaches and sea be like if we didn't drop litter.

\*Do a journey stick on your way to school or your way home. What do you see?

\*Using an iPad or a computer, research the country your family are from. What information can you find out? Favourite food, clothes, music, places to visit.

\* What's your favourite song or type of music? Tell us all about it and why you like it.
