

How it works

Over this half term children need to choose a minimum of 3 homework challenge tasks to complete and hand into school on **Monday 27th March**. If children want to complete more than this, then they are very welcome to do so.

We would encourage children to pick at least one task from each subject area but the choice is down to the individual child.

The homework challenge tasks have been designed to be practical and creative but please continue to use the red homework books to record what children have completed during the half term. This might be by writing about it, using ICT, sticking in drawings or even photos. It would be really helpful if children could date their work.

Adults supporting homework challenge tasks are also free to write in homework books to confirm children have completed particular tasks if necessary.

If you have any questions or help please speak to your child's teacher who will be happy to help.

All challenge card homework for this half term need to be back in school on **Monday 27th March**.

Homework Challenge Card

Your choices for this half term

English

- Write a diary entry for a day, in role as Dougal.
- Practice reading and writing the Y2 Common Exception Words.
- Go on a walk and use your 5 senses to generate adjectives to describe where you are walking.
- Choose your favourite story character. Make a collage of them and write a description.
- Write a letter to someone. It could be a real person such as a family member or a character from a story.

Maths

- Using a ruler, estimate and measure the length of different objects in your house.

Challenge: can you compare the lengths using the greater than, less than and equals signs.

- Practice adding and subtracting different 2 digit numbers and write the answers. E.g $23 + 41 = 55$, or $65 - 34 = 31$. Practice drawing dienes if you are finding it tricky to solve mentally.
- Write your own addition and subtraction word problems. Draw a bar model to solve.
- Write a word problem for a multiplication question. Do the same for a division question. Solve them and show your working out.

Challenge: Use Times table rocks stars to challenge yourself!

- Complete the Shapes and fractions tasks on Mathletics.

Topic

- Do five acts of kindness. Record what they are.
- Choose your favourite animal and draw a food chain , including the animal.
- Go on a minibeast hunt.
- Create a mix media collage.
- Practice logging onto purple mash. Create a picture in Paint and save it.
