Year 6

Spring 2

Homework Challenge Card

How it works

Over this half term children need to choose a **minimum of 3** homework challenge tasks to complete and hand into school on **Monday 27th March**. If children want to complete more than this, then they are very welcome to do so.

We would encourage children to pick at least one task from each subject area but the choice is down to the individual child.

The homework challenge tasks have been designed to be practical and creative but please continue to use the red homework books to record what children have completed during the half term. This might be by writing about it, using computing skills, sticking in drawings or even photos. It would be really helpful if children could date their work.

Adults supporting homework challenge tasks are also free to write in homework books to confirm children have completed particular tasks if necessary.

If you have any questions or help please speak to your child's teacher who will be happy to help.

All challenge card homework for this half term needs to be back in school on **Monday 27th March**.

Your choices for this half term

English - Books this half term:

- 1) Journey to Jo'Burg
 - 2) Long Walk to Freedom
- Write a poem about Apartheid.
 - Imagine if schools in South Africa were still segregated today. Write a letter to the South African president expressing your feelings about this.
 - Create a magic potion of kindness.
 - Naledi and Tiro go on a journey to Jo'burg to see their mum. Write a detailed description of a journey that you have been on.
 - Write a fact file about an endangered species from the continent of Africa

Maths

Mathletics is available to you whenever you want to improve your Maths! Go onto the topics that you are learning in class OR revisit something you remember finding tricky.

Other options are:

- Learn all of your times tables up to 12x12. Remember to practise the division facts! **Show** evidence by writing them out in your book. Time yourself. Can you get faster each time?
- Play the 24 game. You have to make 24 by using all 4 numbers given. www.coolmathgames.com/0-make-24. **Record** your solutions for each card in your book.
- Try out the Tangrams shape game here: <https://mathigon.org/tangram>

History: Protests

- Create a timeline of Nelson Mandela's life.

PSHE

- Our topic this term is Healthy Me. Research and write a menu for a healthy South African meal.

Geography

- Draw and label a map of a journey that you have been on.

Art

- Create an anti-racism poster.
- Create a piece of art work inspired by a South African artist.

DT

- Create a 3D model of an endangered species living in the continent of Africa.
